the OEM Warranty**

Compatible Fiber and Copper Transceivers, Cabling, and Other Accessories

AddOn is the largest provider of compatible network upgrades and connectivity products. They are well known throughout the industry for setting standards of quality and reliability. Providing trusted and tested solutions is really at the heart of what they do. They have invested over a decade of research and resources to creating an internal model to maintain full compliancy for all of their products.

Why AddOn?

AddOn provides a quality, standards-tested product with a lifetime warranty that doesn't violate existing warranty or service plans - at a fraction of the cost.

- OEM warranties are NOT effected
- Tested beyond standard specification
- Tested in environment
- Lifetime warranty
- Trade Agreement Act Compliant parts
- Made in the USA
- Only fiber optic manufacturers that are ISO 9001 certified
- 50% to 80% savings vs. OEM
