

ARE YOUR MISSION CRITICAL ENVIRONMENTS OVERDUE FOR A SPECIALIZED FLOOR CLEANING?

At JEM Tech Group, our goal is to provide you with detailed cleaning services to protect your data center, telecom rooms, IDF rooms, network closets, network operations center (NOC), edge computing locations, battery rooms and any new construction buildouts within this space from airborne particulates to keep it running efficiently. Not only does our cleaning team, a group of IT Professionals, have over 20 years' experience in IT and mission critical environments, they also ensure the operational integrity of your company's technology assets. While performing cleaning services, we will identify and report any issues and concerns. For example: leaks not detected by your leak detection system, fire hazards, disconnected or damaged cables. Also, airflow best practices under raised flooring, in the room or within enclosures, and any other issues we may find.

“ According to the Ponemon Institute, the average cost of data center downtime is at \$740,357. That's \$8,851 per minute of lost revenue. ”

Critical Cleaning Services Include:

- **Sub-Floors:** Removal of large debris and particulate/ferrous metals with Triple Filtered HEPA/ULPA equipped vacuums
Please note: Fire suppression systems will need to be bypassed during this process
- **Raised Floor Surface:** Clean top of floor using anti-static access floor approved solution reducing unsightly marks or scuffs, restoring tiles to their best appearance
- **Equipment:** Detailed exterior decontamination of all accessible equipment such as cabinets, monitors, chairs, and desks using micro fiber applicators with static dissipated solution to remove particulate residues and micro contaminants
- **Sub-Floor Seal:** Application of 100,000 psi polymer applied to high tech critical environment concrete surfaces
- **Airborne Particle & Temperature/Relative Humidity Testing (upon request):** Pre and post-cleaning
- Additional service options available to meet your site-specific needs. Contact your sales representative for additional information.
