

Maximum efficiency in a minimal space

Edge solutions with innovative cooling technology

Edge solutions are often located in unconditioned environments and exposed to harsh conditions, making protection of the IT equipment from such contaminants crucial. Rittal offers a full spectrum of cooling solutions designed to operate in these harsh environments maintaining the proper conditioned space for your IT equipment.

Application example:

Single enclosure solution designed to install in space constrained locations. The stand-alone roof top air conditioner and solid front and rear enclosure doors ensures operation in the harshest of environments.

Your benefits at a glance:

- Pre-engineered solutions - unpack, install, and deploy
- Industrial strength - protect the mission critical IT deployment
- Safety, security, stability - designed to maximize uptime
- IP 54 with pleated filter rating keeps equipment safe from dust and water droplets
- Remote monitoring and control – sustain locations with limited IT support infrastructure

Application example:

- Integrated single enclosure with cooling, power, fire suppression, and related accessories
- Designed for unconditioned spaces, such as factories, distribution centers, closets
- Physically secure installation protects critical IT equipment against dust, water, fire, and intrusions
- Remotely monitor and control installation
