

## LIVE LIFT DATA CENTER SERVICES™

- *Replace your raised access floor while staying live*
- *1,000s of sq. ft. replaced*
- *1,000s of cabinets lifted*
- *No migrations*
- *No down time*
- *3,000 sq. ft. room replaced in just 14-16 days*
- *Minimal disruption of normal server room activities*

Raised access flooring has an operating life of 20 years. Is yours showing evidence it needs to be replaced? Invite Live Lift's RAF experts in for a free evaluation to help determine your facility's needs.

Equipment migration will tie up large swaths of your valuable white space for future server replacement. Avoid the extra labor, cost and headaches by replacing your flooring now while your servers remain live and operational.

Yes, it can be done. Live Lift has been doing it—safely and reliably. We don't just meet expectations, we exceed them. Call us today.
