JEM Computers, Inc. DBA JEM Tech Group is a woman-owned, small business with nearly 50 years' IT experience specializing in mission critical environments such as data centers, edge computing and cloud locations, telecommunication closets, branch offices, remote sites, and command and control centers. The hub of our products and services portfolio concentrates on assisting you with your IT power and cooling infrastructure. By improving the management of these environments, customers have been able to save significantly on their long-term energy costs. Because no mission critical site is alike, we take the time to listen and understand your challenges offering vendor neutral long-term strategies to achieve your energy efficiency goals setting us apart from our competition.
